SUMMARY

Detail-oriented Junior Frontend Developer with a strong foundation in HTML, CSS and JavaScript. Demonstrated ability to build responsive, user-friendly web applications while showcasing exceptional problem-solving skills. Previous experience in education has enhanced communication and collaboration capabilities, complemented by leadership roles in wildlife research that underscore project coordination and attention to detail. Aimed at contributing technical expertise and organizational strengths to a forward-thinking development team.

SKILLS

- HTML
- CSS
- Responsive design
- Full software development lifecycle
- Front-end frameworks
- Javascript
- API integration
- Git proficiency

EXPERIENCE

01/2018 - 06/2024

Teacher and Student Support

International School of Almhult - Almhult, Sweden

- Taught Mathematics to Grade 8,9 and 10. Assisted students with behavioural and learning difficulties during class time.
- Developed and implemented lesson plans based on curriculum objectives.
- Provided individualized instruction to meet the needs of all students.
- Monitored student behavior in classrooms, hallways, cafeteria, playgrounds.

02/2016 - 09/2017

Photographic Guide

Zimanga Private Game Reserve - Mkuze, South Africa

- Hosted guests and operated photographic activities, such as hide sessions and game drives.
- Assisted in field management and maintenance of reserve infrastructure.
- Involved in all aspects of development and monitoring of the introduction of wildlife to the reserve.

11/2013 - 04/2015

Senior Field and Trails Guide

Leopard Mountain Game Reserve - Hluhluwe, South Africa

- Hosted guests, and conducted guided safari drives and trail walks.
- Assisted in training new guides and mentoring trails guides.
